

KSA Office IT Support & Infrastructure Management

Phase 07: IT Support Operations

Afaq Business Solutions Co.

Password Reset Standard Operating Procedure (SOP)

1. Purpose

Provide a standardized process for securely resetting user passwords.

2. Scope

Applies to IT Support staff handling account access incidents.

3. Password Reset Workflow

- Log the incident ticket.
- Verify user identity.
- Confirm the issue.
- Reset the password.
- Require password change at next login.
- Verify successful login.
- Document actions and close the ticket.

4. Identity Verification

- Verify employee identity.
- Do not share passwords over insecure channels.

5. Security Requirements

- Use strong passwords.
- Maintain confidentiality.

6. User Communication

- Explain the reset process.
- Advise immediate password change.

7. Best Practices

- Record all actions.
- Close ticket after user confirmation.
